PVC CEMENT

CDT Underground, LLC., supplies Weld-On® cements which have the widest range of high-strength, Low VOC solvent cements for every PVC application, for rigid as well as flexible PVC pipe and fittings. Low VOC cements are environmentally friendly with lower emissions and reduced odor, and they surpass the most stringent regulations. Regular, medium, heavy and extra heavy bodied cements are specifically formulated for PVC pipe in virtually every schedule and in sizes with interference fit from ½" to 30" diameter.

PVC cements are available in regular bodied and heavy duty in sizes 1/4 Pint, 1/2 Pint, Pint, Quart and Gallon containers.

Markets served by CDT include CATV, telecommunications, utility and DOT.

Weld-On® 702™ CLEAR: Regular bodied, fast setting, Low VOC PVC cement for all classes and schedules with interference fit through 4" (110 mm) diameter (except Schedule 80). Excellent for DWV, irrigation, electrical conduit, pool & spa and plumbing, including PVC foam core pipe.

Weld-On® 711™ GRAY: Heavy bodied, medium setting, low VOC PVC cement for all classes and schedules with interference fit, including Schedule 80 through 12" (315 mm) diameter. It has good gap filling properties and its medium set allows more working time in warm weather. High-strength formula is ideal for industrial piping systems.
