FINGER CAPS

CDT Underground, LLC., supplies two different styles of finger caps used to seal cable and conduit. Finger caps are constructed from durable polyvinyl and PVC as an inexpensive solution to protect conduit from dirt, debris, rodents and other field hazards.

Finger caps are available in sizes 1/2" to 3" in single, dual and three finger configurations supporting various cable sizes and packaged in box quantities of 100 each.

Markets served by CDT include CATV, telecommunications, utility and DOT.

FINGER CAPS CHANNEL COMMERCIAL

PART#	SIZE	CABLE	# OF FINGERS	BOX QTY	WEIGHT PER BOX (lbs.)
