SIMPLEX DUCT PLUGS

CDT Underground, LLC., supplies simplex duct plugs which effectively seal around and support conduits and cables in through penetration, openings or core drilled penetrations, such as building entrances or conduit openings. Simplex entry seals prevent leakage around conduits and cables entering structures of all kinds. Because of their split design, these plugs are retrofitable, removable, and reusable.

Simplex duct plugs are available in sizes 1" to 8" with cable ranges from .69" to 6.69".

Markets served by CDT include CATV, telecommunications, utility and DOT.

STANDARD SIMPLEX DUCT PLUGS (other sizes available)

| PART# | SIZE | DUCT ID RANGE (in.) | CABLE OD RANGE (in.) |
|------------------|-------|---------------------|----------------------|
