DETECTABLE PULL TAPE

CDT Underground, LLC., supplies Detectable Pull Tape used to locate buried conduit and pulling inner duct or cable into existing conduits. Detectable pull tape is made with a copper tracer wire woven into the tape providing a continuous circuit and is available in 1250#, 1800# and 2500# tensile strengths in continuous lengths.

Markets served by CDT include CATV, telecommunications, utility and DOT.

DETECTABLE WOVEN POLYESTER PULL TAPE WITH SEQUENTIAL FOOT MARKINGS

SIZE (lbs)	TAPE WIDTH (in.)	REEL LENGTH
1,250	0.500	3,000
