PULL TAPE

CDT Underground, LLC., supplies pulling tape used to install inner duct and cable inside conduit. Pull tape is a polyester woven product or spiral wrapped poly twine with tensile strength from 210# to 2,500# and is available with sequential foot markings.

Pull Tape is available on wooden or plastic reels and cartons or plastic pails in continuous lengths.

Markets served by CDT include CATV, telecommunications, utility and DOT.

WOVEN POLYESTER PULL TAPE WITH SEQUENTIAL FOOT MARKINGS
