PVC SPLIT DUCT

CDT Underground, LLC., supplies Conduit Repair Systems' Split Duct which is an innovative and efficient product that is great for enclosing fiber optics, cables, and repairing damaged conduit. When snapped together, the unique interlocking design of Split Duct creates a smooth tight seal protecting the cable or fiber optics from weathering. No tape, plastic, or metallic straps are needed to seal or provide extra strength to the Split Duct.

PVC Split Duct is available in sizes 1" to 6" in a SCH40 wall, 2" in a SCH80 wall and 4" in a Type C Conduit. It is supplied in 10' lengths, plain end, gray in color.

Markets served by CDT include CATV, telecommunications, utility and DOT.
